

200 DIE IN CYCLONE

Fire and Rain Follow Wind Adding to the Weight of Woe.

HUNDREDS WERE INJURED

And the Property Loss is Many Millions of Dollars—Portion of Omaha, Neb., is Laid in Waste.

A death toll probably reaching 300 with \$15,000,000 property loss was caused by the tornadoes which swept through the middle west Sunday night and Monday. Omaha, Neb., is the heaviest sufferer with at least 150 dead and devastation totaling \$10,000,000. This takes no reckoning of the hundreds more who have been injured, scores perhaps fatally. A broad section of the residential section of the city was wiped out. Fire added to the general havoc. Panic ensued and state and federal troops were called to maintain order. Other Nebraska towns felt the death dealing force of the wind which swept into Iowa, as well as Missouri, Indiana, Illinois, Montana, Wisconsin, Kansas and South Dakota.

As far east as Chicago the fatal force of the storm was felt, the toll there being five killed with \$500,000 damages. In Milwaukee, \$200,000 property loss was sustained. Thirty are dead from the storm which hit Terre Haute, Ind. Fifteen were lost at Yucan, Neb.; between eighteen and thirty-five in surrounding Nebraska towns, ten at Council Bluffs, Ia., while deaths of from two to fifteen persons are reported from a score of other towns through the nine states encompassed by the two storms. The history of the middle west contains no record of storms of such violence and attended by such appalling loss of life.

Omaha, chief city of Nebraska, lies prostrate under the spent force of the worst tornado in the history of the middle west. Roaring down suddenly upon the city shortly after 6 o'clock Sunday night the storm cut a path seven blocks wide and twenty-four blocks long through the heart of the residential section. A total of 150 dead are left in the wreck strewn path. Thrice as many were injured, many of them it was feared fatally. One hundred bodies have already been recovered and search of the ruins is still going on. The property loss is estimated at from \$10,000,000 to \$12,000,000. Twelve hundred houses were wrecked in addition to five public schools and seven churches. At the moment the storm struck, every light in the city was extinguished. Fires started all over the destroyed section. Panic at once ensued.

TWO PUBLIC MEETINGS

Illustrated Lectures to be Given in the Interests of Farming.

The U. S. Department of Agriculture and the Pennsylvania State College, working with Messrs. Hall & Reed, proprietors of the Echo Valley Creamery, have arranged for public meetings in the interest of better dairy farming and farming generally in Bedford county.

The first meeting will be held, with the cooperation of the Charlottesville Grange, in the P. O. S. of A. Hall at Charlottesville, April 11; a second meeting at the Court House in Bedford is planned for April 12.

There will be at least two speakers from the U. S. Department and three from State College. These talks will be illustrated with pictures, charts, etc., portraying dairy methods and conditions in various parts of the country. A cow judging demonstration and an exhibition of a mechanical milking machine are also being planned. Hand bills will announce further plans, program and details. The public is cordially invited to attend.

Rev. W. V. Ganoe Retires

Rev. W. V. Ganoe, who for the past three years was the minister of the Methodist Episcopal Church at this place, has retired from active work for a period of one year and left for Jersey Shore Wednesday morning, where he will reside with his son-in-law and daughter, Mr. and Mrs. Guy Rorabaugh.

During Rev. Ganoe's ministry here he accomplished a work that few, if any, could excel. He had hosts of friends who regret his leaving Bedford. Mr. Ganoe has been in the service as a minister for forty-four years, and The Gazette, along with his many other friends, wish him happiness in his retirement.

His successor, Rev. George W. Faus, along with his family, came to Bedford from Altoona, where he had been pastor of the Chestnut Avenue Church, yesterday morning, and a reception was given them by the members and friends of the church last evening. Rev. Faus comes to Bedford highly recommended as a minister and worker. He will preach both morning and evening next Sunday in the local church.

Marriage Licenses

Franklin Otto of New Paris and Jennie Viola Bentz of Reitz, Somerset County.

James Peck of Altoona and Virgie Householder of Bedford.

Earl Showalter and Mary B. Snow, of West Providence.

Thomas Bambling and Grace Weaver, of Langsdale.

Harry D. Long and Ida Belle Kengy, of Baker's Summit.

Franklin L. Twell of Spokane, Wash., and Estella Morse of Clearville, Rt. 2.

FATAL AUTO WRECK

Former Bedford Man Dies From Injuries Received at Pittsburgh.

Last Saturday afternoon Frank Amos, formerly of Bedford, but for a number of years a resident of Pittsburgh, was thrown from an automobile in which he was riding, at the corner of Penn Avenue and Sixteenth Street in Pittsburgh, and so seriously injured that he died within an hour after being admitted to the Homeopathic Hospital, without regaining consciousness. James Bray, the driver of the auto, attempted to pass a street car going in the same direction and in doing so struck a telegraph pole, the auto rebounded to the street car tracks where it was struck by a car going in the opposite direction, and Mr. Amos and the other occupants of the auto were thrown out, all of them being injured. The other four occupants of the car will recover.

Mr. Amos was a son of the late Josiah Amos, and for a number of years before going to Pittsburgh was employed at Bedford in Allen's store. His body was brought to Bedford and taken to the home of Mrs. B. F. Madore, his sister, from which place the funeral services were held Tuesday afternoon, and were conducted by Rev. W. V. Ganoe of the Methodist Episcopal Church. Interment was made in the Bedford Cemetery.

He was past twenty-four years of age. Surviving him are the following sisters and brothers: Mrs. B. F. Madore, Mrs. George Points and Robert P. Amos, of Bedford; Chester S. Amos, of Butler; Joe F. Amos of Wilkinsburg, and June Amos of Philadelphia, all of whom attended the funeral, except Robert P. Amos, who is at Nassau, Bahama Islands.

STORES WILL CLOSE AT SIX

Local Merchants Will Shorten Hours for Their Clerks.

Placards in the windows of a number of business places in town announce that on April first and thereafter the stores will close at 6 o'clock except Saturday evenings.

This is a desirable and commendable concerted action on the part of a number of local merchants who have caught the spirit of the times and realize the value to their clerks of having the evenings to themselves. It is thought that others of our business houses whose names are not in the list will join in the closing. The drug stores and groceries will remain open later.

Following is the list of firm names appearing on the placard: Metzger Hardware Co., Simon Oppenheimer, Beam and Blackburn, F. C. Pate, Blymyer Hardware Co., Metropolitan Clothing and Shoe House, George T. Jacobs and Brother, Davidson Brothers, W. H. Straub (both stores), Shoemaker and Guyer, Barnett's Store.

RACERS STOP HERE

Auto Contestants Secure Supplies at Hoffman Garage.

The contesting cars in the Pittsburgh to Philadelphia automobile race on Wednesday made their first stop for supplies at the Hoffman Garage. The cars left Pittsburgh at 6 o'clock Wednesday morning and the Packard, driven by Lou Ebbs, arrived here at 8:30 and left at 8:36; and the Mercer, driven by Spencer Wishart, one of the best known racing drivers in the country, arrived in Bedford at 9:09 and left at 9:14. The Mercer lost the 49 minutes to Bedford through tire and engine trouble. The Mercer made the run from here to Everett in seven minutes.

The Packard arrived in McConnellsburg at 10:18 and the Mercer at 10:40; but the Packard had some tire trouble on the long mountain just east of McConnellsburg and the Mercer passed them there.

They passed a tourist going west who was in Bedford later and said that both cars were making 60 miles an hour up that mountain and they could see by the tracks where the racers would jump 10 to 12 feet after hitting one of those bad breakers on the McConnellsburg mountain.

The Packard arrived in Chambersburg at 11:27 and the Mercer at 11:42; Packard arrived at Harrisburg at 1:20 and the Mercer at 1:30; Packard arrived at Philadelphia at 4:07 and the Mercer at 5:05.

A report from Pittsburgh Wednesday night was that the Packard left the regular route east of Harrisburg taking a shorter route and that the Mercer people will protest.

The heavy rain on Wednesday made the time slow as with dry roads the winner was expected to make the run in less than eight hours. The former record held by a Packard was 11 hours and 45 minutes. The Mercer on the trial trip last week made the run in eight hours and 30 minutes.

The race was for a purse of \$4,000, the winning driver getting the purse, and it is stated in Pittsburgh that over \$25,000 was bet on the result.

COMING

Miss Fearless and Company to Assembly Hall Friday, April 4.

This delightful comedy will be presented under the auspices of "The Young Ladies' Circle" of Trinity Lutheran Church. Whether you be grave or gay you cannot fail to be pleased.

Come and enjoy Miss Fearless in her independence, Sarah Jane Lovejoy's quaint humor, Irish Katie's rich brogue and Miss Phemie's nerves. Or if these do not appeal to you, you will surely feel a "cold shiver" when the ghost appears.

VICTIMS OF FLOOD

Conservative Estimates Place the Number of Dead

ABOVE THREE THOUSAND

In Ohio Alone—Other States Suffered—Flames Follow High Waters—A National Calamity.

Tuesday of this week will go down in history as the date of one of the most disastrous calamities that ever befell our country. Thousands of acres of Ohio, Indiana, Missouri and adjoining states were submerged and thousands of human beings lost their lives; while it is not possible to estimate the property loss at this time, it will go far into the millions.

The President of the United States and the Governors of practically all the states have issued proclamations calling on the people of the nation for aid in the great calamity, and the Legislatures of many states now in session have appropriated large sums for the relief of the sufferers. As is usually the case, fire is following the flood in many places and adding to the horror. Starvation is staring thousands in the face while railroad, telephone and telegraph communications are shut off.

The following dispatch from Dayton, O., gives an idea of conditions as they exist in that city and at other places:

Dayton, O., March 26.—That a fierce fire, which appeared to be sweeping through the half submerged business district of Dayton late tonight, had destroyed the Beckel house, where there were supposed to be more than two hundred flood refugees, was the consensus of opinion of scores of watchers atop the National Cash Register building, nearly two miles from the scenes of the flames.

Soon after midnight it appeared the flames were wavering. While many persons conversant with the district, and who watched from a distance, did not agree upon the possibility that the Beckel house had succumbed to the fire, yet all watchers expressed fear that many of the marooned had perished in the flames that appeared to have worked from east to west, a distance of nearly two blocks.

A telephone operator at Lineman, O., said the Lewistown reservoirs would not hold until daylight. Lineman is twelve miles from Lewistown, and is the nearest point in wire communication thereto. Lewistown is 70 miles north of here. It is said that if the dam breaks, a worse flood than already has come will result.

At 1:05 a. m. the state guardsmen shot and killed a man attempting to loot the homes of flood victims on Fifth Street.

Flames that destroyed eight buildings in Dayton's submerged business section tonight, cast a red glow over the flood stricken city, that added to the fears of thousands of refugees and marooned persons, and led to apprehension that there may have been many of the water's prisoners in the burning buildings.

Soon afterward, notice was posted in headquarters of the emergency committee, announcing that the city was under "martial law," and several companies of soldiers arrived from neighboring Ohio cities. The soldiers were employed to patrol edges of the burned district, and prevent further looting of homes freed from the floods. Up to a late hour tonight, there had been no material disorder.

Estimate of Dead

The following estimate of the dead in Ohio and Indiana is sent out from Chicago:

Ohio—Dayton, 2,000; Piqua, 540; Delaware, 100; Sidney, 50; Hamilton, 12; Tippicanoe, 3; Tiffin, 11; Fremont, 11; scattering, 200; total, 3,066.

Indiana—Perrin, 150; New Castle, 3; Lafayette, 2; Indianapolis, 14; Noblesville, 2; scattering 25; total, 196. Total in both states, 3,262.

Twenty Reported Dead at Sharon Sharon, Pa., March 26.—Twenty persons are reported to have been drowned here today when the swollen Shenango surged over its banks and spread destruction through the whole Shenango Valley.

The property damage in Sharon alone, it is estimated, will be between \$2,000,000 and \$3,000,000. The damage to property through the valley cannot be estimated this early.

At Wheatland, a town of 1,000 inhabitants several miles below here, heavy loss of life is reported, but the stories cannot be verified tonight. West Middlesex suffered property damage as also did Sharpsville. The water plants at both these towns were inundated and a water famine threatens. No loss of life, however, has been reported.

Tonight the business section of Sharon is covered by from three to four feet of water and all the city is in darkness. The outposts of the river surged up Main Street, the principal thoroughfare of the town as far as the Shenango Hotel.

New Auto Truck

On Wednesday of this week S. I. McVicker, the hustling proprietor of the local bottling works, received a one-ton "Little Giant" auto truck with which he will deliver pop to his customers.

Mr. McVicker has also installed an up-to-date ice cream manufacturing plant and will wholesale ice cream. This is a new industry for the town for the establishing of which Mr. McVicker deserves credit.

TRINITY LUTHERAN CHURCH

Celebrates Easter Sunday in a Most Appropriate Manner.

The Resurrection of the Lord was fittingly observed with elaborate and rich services at the above named church, from the dawn of Sunday to the evening.

The large and interesting audiences which gathered through the Passion services, in which the four Protestant churches of the town joined, prophesied the larger interest manifested on Easter Day.

Early in the morning, while it was yet dark, many worshippers could be seen wending their way to the center square to the Lutheran Church, to listen to the finest Easter cantata yet rendered by the choir of the church, the name of which was "The Resurrection Hope." It was full of the life which should characterize such a cantata. Carrie Adams, the author, never served to better advantage her splendid talent. The cantata, which required one hour to render, was listened to by a large crowd of people, who came at the early hour, some at 6 in the morning, others at 6:30. The personal of the choir, composed entirely of young people from the church, was: Sopranos—Mrs. Gump, Misses Colvin and Morgart and Mrs. Billman; Altos—Misses Moore and Dodson; Tenors—H. B. and Clyde Cessna, Milton Sammel and H. E. Wiesand; Basses—Anthony and Fred Sammel and Harry James. Miss Grace Stewart was organist.

This was a rich preparation for the great outpouring of people who came to the Holy Communion at 11 o'clock. The Sabbath School, at its morning service at 9:45 o'clock, also had a red-letter day, with large attendance and a forward step in raising money for the project and a committee appointed to secure a piano for the school and church.

The communion was attended by the largest number since the present pastor has been in Bedford. The offering for benevolence through the special envelopes for Church Extension was over \$45; this not including the offering of benevolence through regular envelopes of the Duplex system.

The interest of the morning's service was heightened by the ingathering of a large number of people, who became members of the church. The son, Mr. and Mrs. Joseph Barley, Mrs. son, Mr. and Mrs. Joseph Barley, Mrs. Thomas Little, by letter; Mrs. William Arnold, by renewal; Elmer Barley, Harry Hartzel, Martha Barley, Irene Evans, Elsie Earnest, by baptism; Dorothy Arnold, Mildred Leonard, Margaret Debaugh, Ethel Davis, Maggie Morgart, Nancy Casteel, Bertha Stiffer, Catharine Snell, Maynard Gephart, George Bowser, Anthony Sammel, Jr., Harry Leonard, Tom Gephart, Charles Moore, Margaret Barley, Ralph Bowser and Fred Hockenbury, by confirmation. Not for many days was so much interest centered in a Communion in this church as at this time. It was indeed a pentecostal day, for which we give the praise to Him to whom it belongs.

The evening came with interest not abated, the large audience attesting to this fact. Songs of Victory, another cantata, with recitations and a brief address by the pastor interspersed, was rendered, in a most excellent manner. Four young ladies received the offerings of the evening. The program was well prepared by the young people, coached by an excellent committee. The pastor wishes by this means to express his appreciation to all who assisted in making this day so rich and blessed, a real red-letter day for Trinity.

The decorations for the day were in the hands of Mrs. Alsip and the pastor, and were declared by many to be the most beautiful ever seen in Bedford. The rich design, with blending colors of green of various hues, the pink, light blue, and white of hyacinth in abundance, raised by the pastor's wife—with rich Easter lilies, furnished by Mrs. Gump and Mrs. Harry Cook, with cut flowers and Easter flowers, giving life to the whole scene, furnished by Mrs. Alsip—this fittingly celebrated the glorious Resurrection fact.

Pastor.

Beautiful Easter Services

The Easter services held in the Methodist Church Sunday night were attended by one of the largest congregations ever assembled there. The services were of an unusual form, consisting mostly of singing by a large chorus. Miss May Hartley was the reader and she performed her part in a very creditable manner. The members of the chorus were robed in white gowns, and the program, which follows was similar to the one rendered last Christmas:

Part 1—Triumphal Entry

Processional, "Hosanna;" Lord's Prayer Chanted; Solo and Chorus, "The Palms;" Dr. C. R. Grissinger; Reading, Miss May Hartley; Solo, "Hosanna;" Mrs. George T. Jacobs.

Part 2—Crucifixion

Chorus; Reading, "Judgment Hall to Calvary;" Chorus; Congregational, "The Way of the Cross."

Part 3—Resurrection

Reading; Chorus, "Christ Arose;" Chorus, "All Hail, Immanuel!" Solo, D. S. Horn; Chorus; Congregational; Chorus.

Part 4—The New Kingdom

Reading, "Reference This Life;" Chorus; Chorus, "Missionary Hymn;" offering, "Easter Missionary;" Reading, "New Kingdom Revelation;" Solo and Chorus, "The Holy City," Miss Emma Shuck; Remarks by Rev. W. V. Ganoe; Congregational, "All Hail the Power of Jesus' Name!" Benediction.

An interesting Woman's Meeting was held in the Loyal Temperance Legion room Tuesday afternoon under the auspices of the Mothers' Department of the W. C. T. U. Excellent papers touching on the various phases of woman's work in the home and state were read and a general discussion of parental obligations entered into spiritedly. A pleasant close to the social event was the serving of light refreshments.

Easter at St. John's Reformed

Easter Sunday was a blessed day for the members and friends of St. John's Reformed Church. The auditorium was most beautifully decorated with potted plants—more than 125 white hyacinths being used. Reclining upon the altar was a large cross, formed of the potted hyacinths,—life from the cross—beautifully emblematical of the risen Lord. The communion service was largely attended. Twenty-two persons united with the church. The offerings for the day amounted to more than \$200.

At 7:30 p. m. a beautiful Easter service entitled "The Day of Hope" was rendered by the children of the Sunday School, while a large chorus, under the direction of Prof. S. H. Koontz, sang with charming effect the carols of the above named service. So beautiful is this music that it has been decided to repeat it next Sunday morning at 11 o'clock.

The program as rendered Sunday night follows: Music, "The Lord of Life is Risen;" Chorus; Invocation by Pastor; Recitation, Pauline Pepple; Recitation, Luther Smith; Solo, Lillian Strook; Exercise, "An Easter Rainbow;" Music, "Rejoice! Rejoice!" Chorus; Recitation, Floyd Souser; Duet, Magdalene Reed and Marie Wertz; Song, Eight Girls; Recitation, Wynona Garbick; Duet, Ruth Reed and Louise Strook; Exercise, Bertram Smith and Ross Brown; Music, "There is a Green Hill Far Away;" Chorus; Exercise, "The Light of Easter;" Music, "Come ye Faithful, Raise the Strain;" Chorus; Song by Primary Department; Recitation, Irene Diehl; Music, "Unto Him be Glory;" Chorus; Exercise, "We Know That Jesus Lives;" Music, "Heavenly Hope;" Chorus; Exercise, "Rock of Ages;" Music, "The Radiant Glory;" Chorus; Offering; Doxology; Benediction.

HARRISBURG LETTER

Work Being Done by Both Branches of the State Legislature

INVESTIGATING DUAL JOBS

On Capitol Hill—Woman's Suffrage—Injuries to Workmen—Pay For Work Not Done.

Harrisburg, March 22.—Governor Tener and the House of Representatives have compromised the difference that arose between them recently regarding a supposed infringement on the power and dignity of the Governor. The story in brief is this:

Toward the close of January the Legislative Publicity Bureau called attention to the fact that there are quite a number of employees on Capitol Hill who are holding two jobs and drawing two salaries, which is contrary to good public policy, whatever it be with regard to law. Representative F. G. Geiser of Easton took up the matter to which the bureau had called attention, and offered a resolution in the House for the appointment of a special committee to investigate the matter.

This committee issued subpoenas requiring testimony from several members of the Governor's executive staff. The Governor instructed these parties to pay no attention to the subpoenas of the committee, and sent a message to the House alleging that this effort to get testimony from his subordinates was an attempt to impair the authority and dignity of his office. He offered to give the committee any information it might ask for, but he would not permit his subordinates to respond to the subpoenas, and give testimony under oath in person.

This unfortunate communication, which is said had been written on the advice of the Attorney General, pushed the matter of dual office holding entirely into the background, and raised the vital issue of the power of the House to enforce its authority even against members of the Governor's own executive staff. The whole matter was then referred to the Judiciary General Committee, with instructions to ascertain and report to the House the respective merits of both sides on this question.

The chairman of the Judiciary General Committee is Mr. Rockwell of Tioga County. This committee concluded the preparation of its report on Tuesday night, for submission to the House Wednesday morning. In the meantime the Governor had learned, from wiser men in the laws and precedents of the Commonwealth, that the position he had taken with regard to the power of the House was untenable. Therefore, in order to forestall action by the House on the report of Mr. Rockwell's committee, the Governor sent to it another message, which was read Wednesday morning, before the Rockwell report could come up for consideration in the regular course of procedure.

In this message the Governor climbed down gracefully off his high horse, claiming that there had been a misunderstanding between himself and the committee as to the intent and scope of the latter's investigation, and that if the investigating committee would honor him with a personal visit, he had no doubt they would be able to come to an amicable understanding, and avoid a serious conflict between the two branches of government.

D. J. Shern of Philadelphia, acting in behalf of the Governor, moved that the message be received, and the committee be directed to call upon the Governor, as requested. This brought on a very lively conflict, in which the antagonists of Mr. Shern's motion took the ground that no action should be taken on the Governor's message and invitation until the House had heard the report from Mr. Rockwell's committee. The debate that followed lasted for three hours. The result was that the Governor's invitation was accepted and the committee directed to call upon him and ascertain what he had to say. After

FACT

Local Evidence

Evidence that can be verified. Fact is what we want. Opinion is not enough. Opinions differ. Here's a Bedford fact. You can test it. George C. Stiffer, 302 W. Pitt St., Bedford, Pa., says: "The hardships I endured while in the Civil War, disordered my kidneys. I often had to get up during the night to pass the kidney secretions and my back ached constantly. Seeing Doan's Kidney Pills highly advertised, I commenced using them. It did not take them long to benefit me. Today I am in better health than I have been for years. I can recommend Doan's Kidney Pills just as highly today as I did some years ago."

Microbes in Your Scalp

Authorities say that a microbe causes baldness. If you are losing hair try our remedy at our risk.

Professor Unna, of Germany, and Dr. Sabouraud, the great French Dermatologist, claim that a microbe causes baldness, and their theory has been verified by eminent scientists. This microbe destroys the hair follicles, in time causing the sharp points to close and the hair to become shiny. Then, it is believed nothing will revive the growth. If treated before this occurs, baldness may be overcome.

We know of nothing that has given such universal satisfaction in treating the scalp and hair as Rexall "93" Hair Tonic. It has been designed after long study to overcome the cause of falling hair as discovered by Dr. Unna, Dr. Sabouraud and other scalp and hair specialists, and we believe it will do more than anything else can to remove dandruff and stop falling hair; and if any human agency can promote a new growth of hair it will do that, too.

We want you to make us prove it. We will pay for a month's treatment of Rexall "93" Hair Tonic used during a trial, if you will use it according to directions, and are not thoroughly satisfied. When we will do this, you surely should not hesitate to at least try it.

Start the treatment today. Your mere request will get your money back if you want it. Two sizes: 50c and \$1.00.

Bedford The Rexall Store Pennsylvania

There is a Rexall Store in nearly every town and city in the United States, Canada, and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ailment—each especially designed for the particular ill for which it is recommended. The Rexall Stores are America's Greatest Drug Stores.

this action the Rockwell report soon came up in order and was read. It is very lengthy. Voluminous citations of law and precedents are made to show the complete power of the House to enforce its subpoena even upon members of the Governor's own cabinet, provided it was not sought to secure information whose disclosure would be prejudicial to the public good.

The day following, Thursday, the investigating committee called upon the Governor and were graciously told that the members of his staff who had been subpoenaed would be required to respond to the writs and give the testimony expected of them, if necessary. It was not the object of the committee to secure information which the Governor decided should remain secret. So at the next meeting of the committee all witnesses summoned will appear.

Woman's Suffrage

The Woman Suffrage movement had a field day in the Senate Tuesday. The bill which the House passed some weeks ago, providing for a popular vote on a proposed amendment of the constitution giving women the right of suffrage, is now in the hands of the Senate Committee and many distinguished women in Pennsylvania and from outside the state, indeed, one of the most prominent was from England, were present and addressed the committee in behalf of the measure. Prominent women who are opposed to suffrage for their sex were also present, and made speeches in opposition to the pro-suffrage advocates.

The measure will likely be reported to the full Senate some time next week. There is no predicting safely what will happen to it, since, so far as can be learned, the Senate appears to be about equally divided, but the impression prevails that the suffrage women will win out.

Injuries to Workmen

The proposed law fixing the liability of employers, and compensation for workmen in cases of accident, has come from committee to the House and will be the special order there on one of the days of next week's session. It changes the principle of existing laws on this subject, in that the burden of proof as to the right of an employee to damages on account of an accident, is shifted from his shoulders to that of the employer. In case of a suit for damages for injury under this proposed law, the employer will have to prove to the jury, to escape an adverse verdict, that the fault was with the workman. The bill establishes the assumption, to begin with, that the employer is liable to his employee for damages by reason of an injury he may have sustained through accident in the course of his work as an employee. This is a direct reversal of the present practice. Moreover, the bill fixes the precise amount of damages an employee is entitled to, the basis being his rate of pay at the time of injury. To make this clearer, if a workman receiving twelve dollars a week should be the victim of an accident through no negligence of his own, the damages to which he would be entitled would be his weekly wages during the period of enforced idleness. This period cannot exceed 300 weeks, even if the accident should disable him for life.

The State-wide Primary Election. The State-wide Primary Act, passed this week by the House by a vote of 170 to 10, is probably the most important act thus far of this legislature. It provides for a popular Presidential preference primary. Every Presidential candidate would run in the primary and the one receiving the greatest number of votes would

be entitled to all the national delegates and alternates, which he himself would select. The Oregon plan of direct Senatorial preference is included. The candidate for United States Senator who should receive the greatest number of votes on this plan would be elected to the United States Senate, regardless of his politics. Then the Governor, Lieutenant-Governor, Auditor General, State Treasurer, Secretary of Internal Affairs and all Judges of the Supreme and Superior Courts would be nominated in the same way by the people of the entire state. No further state conventions would be held for this purpose. The candidates nominated for State Senate and the House of Representatives would meet in convention, after their nomination, and make the platform on which they would be candidates before the people at the fall election. This bill is now in the Senate.

Pay For Work Not Done

The committee that is looking into the fraud by which some employees of the legislature draw big pay for which no work is done—a long established practice—struck a pay streak on Wednesday. For instance, two men who get six dollars a day each as custodians of the House wash-room, testified that they give only superficial attention to their jobs. They hired a negro janitor, to whom each custodian paid one dollar a day, thus allowing themselves five dollars apiece daily as remuneration not earned. In turn the janitor sublet his job to two colored boys for 50 cents a day each, and he pocketed one dollar a day for doing nothing. Several jobs of this kind were exposed by the committee, and more are to follow. All of them are recommendations of old ring members who understood from experience how to work the game. The new members are surprised to learn what has been going on right under their noses in lavish expenditures of public money without any return to the state. John C. Dight.

Surest Way to End Catarrh

Go to F. W. Jordan, Jr., and say: "I want a HYOMEI outfit." Take it home—pour a few drops of HYOMEI from the bottle into the little hard rubber inhaler—breathe it for five minutes and note the refreshing relief—breathe it four or five times a day for a few days and Catarrh and all its symptoms will gradually disappear. Booth's HYOMEI is balsamic air; it contains no opium, cocaine or other harmful drug and is sold on money back plan for Catarrh, Croup, Colds and Coughs. Complete outfit (includes inhaler) \$1.00—extra bottles if later needed, 50 cents at F. W. Jordan, Jr.'s, and druggists everywhere. Simple instructions for use in every package—you can't fail. Just breathe it—no stomach dosing. Advertisement.

Colonel Roosevelt to Tell Life Story in North American

The North American will publish in weekly installments, beginning Sunday, March 30, a series of autobiographical articles by Theodore Roosevelt of intense human interest. These articles will be not only of national but of international importance, in their interpretation of a personality which during many years has attracted more widespread attention in newspapers and periodicals than any other of the present day.

The world knows Mr. Roosevelt chiefly as a statesman. Only a few know him as a private citizen, and many of the personal experiences that have helped to mold his remarkable career are known only to his close friends and coworkers.

These articles will be fully illustrated with portraits, facsimiles of various documents, pictures of buildings and localities and other appropriate matter.

In order not to be disappointed it is advisable that you place your order early in the week.

A MIGHTY REMEDY

Cures Backache, Sidenache, and all Kidney, Liver and Bladder Diseases, or Money Back.

Yes, money back; that's the offer that Ed. D. Heckerman, the agent in Bedford, makes if Thompson's Barosma fails to cure any of the above named diseases.

And when you stop to think, that's a wonderfully generous offer from the viewpoint of the afflicted, the sick and the suffering.

So if you are ill, have the blues, have lost ambition, have backache or pains in your side, if your urine is high colored, and your eyes dull and complexion sallow, the chances are that your kidneys are weak and clogged up, and that your blood is full of impurities.

So why wait when Thompson's Barosma is guaranteed to restore your health. Get a bottle today at Ed. D. Heckerman's. There are two sizes, 50 cents and \$1.00.

Five years ago Charles Schultz of Dunkirk, N. Y., was so weak and run down that he decided to give up his business. He took Barosma, and in a few months he regained his health and gained 55 pounds in weight. Today he writes: "I have been in perfect health ever since I wrote you five years ago." All druggists. Apple Trees and Peach Trees

In lots of not less than 100 very thrifty one year old stock of the following varieties can be had for 10c per tree. Stayman Winesap, Grimes Golden, Rome Beauty, Old Fashion Winesap, Jonathan, Delicious and York Imperial. These are all winter apples. Gravenstein can also be had for 10c and Summer Rambo for 15c.

Two year stock of Winter Banana and Wagner are offered at 12c.

Thrifty one year peach trees (4 to 6 ft.) are also offered of the following varieties: Crawford Late, Bishop (early), New Prolific, Heath Cling, Champion and Levy (late); all of these are of very good quality. Elberta, a heavy yielder of medium quality is also in this list.

Prices in lots of 100 or more are delivered at Railroad points in the district; prices are net cash.

We have also obtained, unexpectedly, a fair quantity of grafting stock of Akin Red and Canada Red, varieties which have shown high quality and productivity in this section; both are handsome red apples and ought to be worked into every orchard.

Each year it becomes harder to handle Ben Davis; and York Imperial is losing caste. Besides, the varieties above mentioned are more profitable to grow for several reasons. If you want to know why send a postal card to A. B. Ross, Schellsburg, asking for letter on the subject of top working apples.

New marketing plans are afoot, whereby the commission man will be abandoned and our fruit sold direct to the grocers for cash. The best grocers will not handle York or Ben when they can get anything else.

Grafting stock has already been offered at 1c per foot of certain varieties. To this list we now add the Akin Red, Canada Red and English Rambo, all winter apples that are winners.

Calls for grafting stock this year are not so heavy as last year. Perhaps that is because 1c per foot is charged for the stock. This goes to the man who has the trees, and is to pay him for the special care and labor in selecting and looking after the wood; it is small enough pay, and little enough expense for the man who ought to top work inferior fruit with that which will bring money.

The list of grafting stock includes all varieties above given and also Cleaver Red, White Pippin, Ewalt, etc.

The Exchange handles this work without any charge for service whatever, simply in an effort to turn unprofitable trees into profitable ones. Send 1c per foot (6 grafts to the foot) to the Exchange and scions will be sent you shortly.

The purchase of apples trees is through the Exchange in its regular way of doing business. Annual membership costs 25c; and the member who orders 100 or more trees, no matter how large the order, pays 25c to the Secretary for looking after the order.

California's First Rice Crop

The harvesting of the first rice crop in this section of the country is now in progress. The industry centers chiefly about Richvale, in the vicinity of which place about 12,000 acres of land have been planted to rice. Figures from the first three or four days of harvesting show that the crop will average about 5,000 pounds to the acre.—Los Angeles Tribune.

Francis Marion Bixler

F. M. Bixler, after a long illness of heart disease, died at his home in Wolfburg Thursday morning, March 20, in the 76th year of his age. He was born in St. Clairsville in 1837 and was a son of William and Sarah Bixler. In early life he went to Lebanon County where he learned the blacksmith trade and in 1857 he purchased the property in Wolfburg, which has since been his home. In his chosen occupation he was indeed a master workman, and his skill as a mechanic was not confined to his native place. He did much special work; built wagons and shod horses for men throughout the state.

F. M. BIXLER

On January 15, 1862, he was united in marriage to Miss Catherine Ickes, at the home of her parents in Wolfburg. Mrs. Bixler died December 2, 1903. Mr. Bixler had no children but leaves an adopted daughter, Mrs. E. A. Hersberger.

Mr. Bixler served for many years on the election board of Bedford Township and was also elected constable of the township a number of times. He was a member of the school board from 1903 to 1905, inclusive, and to his untiring efforts Wolfburg is indebted for the fine and comfortable school building the inhabitants now point to with pride.

A few years ago he was the chosen candidate of his party for the office of Director of the Poor, but was defeated by a narrow majority—his party being on the minority side.

The funeral services were held in the Wolfburg M. E. Church Sunday afternoon when Rev. J. R. Melroy, to a packed house, in an able and eloquent address told of the life and worth of the deceased, after which the beautiful burial service of the Odd Fellows was conducted by members of the Bedford Lodge of that order, of which Mr. Bixler had long been a member. He was also a member of the Bedford Lodge of Masons which presented a handsome floral emblem. His body was taken to Mt. Smith Cemetery and in that hallowed ground laid to rest beside the wife of his bosom whom he loved so well.

Mr. Bixler was indeed an admirable citizen, a model neighbor and a steadfast friend. No man in distress ever approached him in vain for aid. His kindness was as prodigal as the sunshine of a June morning, and, as he lived he died—hopeful and serene.

Many months ago he said to the writer "I believe the disease that is afflicting me will eventually end in death." So he "set his house in order" and when the fateful hour came—as it must come to all—it found him ready. Like a peaceful river without a ripple, without a murmur, he flowed into the waveless ocean of eternal rest.

O grave where is thy victory, Insatiate death where is thy sting? A Friend.

Ladies, Why Not Preserve Your Youth and Beauty?

PARISIAN Sage, the quick acting hair restorer, is for sale in Bedford by F. W. Jordan, Jr., and is sold with a rigid guarantee at 50 cents a large bottle.

PARISIAN Sage has an immense sale, and here are the reasons:

It is safe and harmless. It cures dandruff in two weeks, by killing the dandruff germ.

It stops falling hair.

It promptly stops itching of the scalp.

It makes the hair soft and luxuriant.

It gives life and beauty to the hair.

It is not sticky or greasy.

It is the daintiest perfumed hair tonic.

It is the best and most pleasant and invigorating hair dressing made. Fight shy of the druggist who offers you a substitute, he is unworthy of your confidence. (Groux Mfg. Co., Buffalo, N. Y., American Makers. Advertisement.)

THE SECRET OF SUCCESS

Genuine Merit Required to Win the People's Confidence

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been cured, to those who are in need of it.

In an interview on the subject a prominent local druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows immediate results, as many of my customers testify. No other kidney remedy that I know of has so large a sale."

The success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfills every wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

A free trial bottle will be sent by mail, absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper. Regular size bottles sold at all druggists—50c and \$1.00. Mar. 7-4t. Adv.

Truth, or Just Preaching?

Rabbi Stephen S. Wise, of the Free Synagogue, New York, is responsible for this story, but it ought to be said before the good preacher's tale is told that it is his habit to embellish his sermons with frequent illustrations gathered from many a personal experience. Now:

"I had the pleasure of entertaining some friends at dinner not long ago," says the rabbi. "We had spent a pleasant hour over the meal and I had tried to entertain my guests with some stories.

"My little son had been an interested but silent listener to all that had passed. When the dinner was over he came to my side and whispered into my ear. 'Papa,' he said, 'are all the things you have been telling true, or were you just preaching?'"

HECKERMAN LETTER

Interesting Facts About a Flourishing North Carolina City.
Winston Salem, N. C., March 24.
"Winston Salem has the ways that win,
Her factories make a noise and din,
Producing wealth to one and all
Who labor at the whistle's call."
This wonderful city is located among the foothills of the Piedmont Plateau. Here lives a hospitable, steady and energetic people, most of whom spring from the Anglo Saxons. This is a great manufacturing and financial center, where King Tobacco rules and reigns with haughty sway. The shipments of tobacco alone were over 65,000,000 pounds in 1912, so you can see how it gladdens the hearts of many who chew and smoke the fragrant weed. They say it is a God blest and sun kissed land, where a hearty welcome awaits the stranger within her gates and this hearty welcome lasts as long as the stranger's money does. The growth has been of a solid and substantial basis from the first.

One of the greatest advantages of Winston Salem is its great diversity of the many industries located within her limits and no one who is inclined or desirous of work need remain idle a single day in this city of 35,000. If he tires of one kind of work, he can easily get something else at which to try his hand, for there are over two hundred factories within reach. Every one knows Winston Salem is the largest manufacturing place of the flat flag tobacco and the largest bright leaf tobacco place in the world. 'Tis said that the manufactures of these two items alone pay Uncle Sam three millions in revenue. It is the largest knit goods and the third largest furniture manufacturing in the South. We have here twenty plug tobacco, three smoking tobacco and three leaf tobacco factories, four cotton mills, two woolen mills, one blanket factory, two hoisery and a number of other factories too numerous to mention.

In 1880 there were only four thousand inhabitants here while today there are over thirty-five thousand. This is a great wholesale center. There are large wholesale houses here, representing almost every line and the name Winston Salem is waited to all corners of the globe by the goods being distributed here, there and everywhere. Then again, this city is a great railroad center. Some five or six lines center here and as many as thirty passenger trains come and go each day except Sunday. Electric power here is very cheap and most of the manufacturers operate their various plants with it.

Hardwood in great quantities and varieties is available for the manufacture of furniture, wagons, etc. One of the largest wagon plants in the United States is located here and many wagons with the English beds thereon with two, three, four or six oxen hitched thereto may be seen every day, not only here, but at almost every point of interest in the Piedmont section.

The altitude of this city is about a thousand feet above sea level and situated as it is, under the nose of the grand old Allegheny's in the rich Piedmont section, where the climate is about as even and salubrious as in Los Angeles, Cal., it is much in favor of persons locating here where the evenness of the climate brings health and strength to many, who have been subjected to malaria of the lowlands or to colds contracted, where one day mercury ranges among the sixties and the next day at the zero mark.

Oppressive humidity seldom occurs and it is neither too hot in summer nor too cold in the winter to follow your trade no matter what it may be. We all know that Southern hospitality is famous the world over. The man or woman, who comes south and behaves himself, will be carried along nicely and smoothly by the big hearted people, many of whom even today review the memories of the past, yet would not have them back, as they were sixty years ago, even if they could.

Most of the Southerners are well imbued with the modern spirit of progress, but each and every one acclaims aloud the energy that we northern people possess and say, "where would we be today, were it not for the push and big dollars you northern people possess?"

The Moravian Church here is very strong. It was established in 1776 and has steadily grown. Their mode of burial is odd to me. The young men are buried in a row by themselves and so with the young ladies. A gentleman showed me where his wife, son and daughter were buried, each one in a different lot. There are no family lots in their cemetery. Much more reverence is paid to Ascension Day than to any other Church festival day.

Since writing you last, I have been in two wrecks caused by heavy rains about 150 miles south. Houses were blown over and people either crushed or badly injured. Last

Rape Seed for 1913

I have seen cases in which a single acre of rape furnished forage for 30 shoats from mid-June until the crop was covered by snow; and the shoats flourished without supplementary feed.

It is safe to figure that with early plowing, thorough fitting, liberal use of manure and a light application of lime (through the drill) the crop will furnish ample feed for not less than 15 spring pigs.

Rape is a protein feed, makes bone and lean meat, builds up the big frame on which to lay the fat in the fall when the corn is ready. It is highly profitable, and every farm should have a hog lot down to it.

Because of the small quantity of seed necessary for an acre and the small cost, and to make certain of getting good seed, I have sent for a supply of rape seed (Dwarf Essex) which will be turned over to applicants at a little less than cost, 30c for enough for an acre or 60c for enough for two acres. The purpose is to establish the crop on a broader and more general basis. It is one of those things which furnish a high profit in proportion to expense and labor; and we can't find too many of that kind.

Large areas of this district offer pork productions as the one most profitable type of farming. If this matter of pork production is worked out properly in the future, we should so arrange that at all possible times we provide green forage for the hogs and shoats. The profit depends on the proportion of green and dryfeed.

A very good plan is to seed down in August an area to vetch and rye to furnish the earliest spring pasture. In the spring early seed down Canada field peas and oats, to fill in

between the vetch and the rape. Get the rape lot into order as soon as possible; and turn under the peas and oats for a crop of soy beans for hogging down in the fall. Alternate the hogs between the rape and soy beans, at intervals of a week or so. This keeps them on continuous protein feed, vetch, peas, rape and soy beans, until it is time to fatten them on corn. By that time you have built up a big lean frame on which to lay the fat; and corn feeding will then pay, even at the prices we have to pay for corn in late years. Send in requests for seed promptly. They will be handled in order of receipt.

Marvels of Creation

"A Scotch preacher had been abroad and when he came back he was preaching to his congregation on the marvels he had seen," said the Rev. W. T. Dorward, Tabernacle Baptist church, at a banquet the other night.

"He wound up with this: 'And the same Creator who made the vast ocean made the dewdrop. The same Creator who made the mountain, made the pebble. Yes, and that same Creator who made me, made a daisy!'"—Milwaukee Journal.

Thursday night the top was blown off the hotel I was in. No one was hurt. I laid still and pulled the covers over my head to protect it, not knowing what would come next.

I am nothbound and hope ere long to tread upon the paved street of dear old Bedford.

Yours truly,
M. P. Heckerman.

A Magazine for Fiction-Lovers
Taken altogether Lippincott's Magazine for April is a characteristic and delightful number, maintaining all the excellencies of old-time reputation. The complete novel is a story of love and mystery, entitled "Don't Trifle with Money." Once started, it catches you in the grip of its strong currents and holds you there till the last page is read. The author has gained fame as a writer through her books, "Letters to Women in Love," "Babsy's Daughter," etc., but in this story she exceeds all her past efforts. Yielding to temptation, the hero embarks upon an irregular financial transaction, but his better nature prevails. Then, to his dismay, he finds that bonds for a huge sum which he had been planning to make use of and which belong to another man, have disappeared. The way of this particular transgressor is indeed hard before the story is finished. In the end, however, he is chastened, and he wins the girl—notice the the—and everybody is happy. The short stories and verses are all good.

Literary Notes

John Galsworthy is the English novelist who carries on to the newer generation the great tradition of Meredith as an interpreter of men and women. He begins in the April Scribner a remarkable novel, "The Dark Flower—The Love Life of a Man," in which the hero is carried through three great emotional crises. The three parts are: Spring, Summer, Autumn. The novel will continue through most of the year.

From the Letters and Journals of Charles Elliot Norton Scribner's Magazine will publish a series of striking portraits of his "English Friends." In the April number are presented Dickens, George Eliot, Burne-Jones, Carlyle, and other eminent men of letters as they appeared more than forty years ago.

Outing For April
The present trend in golf, by Harold H. Hilton, is an article in the April Outing which no golfing enthusiast, whether expert or a tyro, can afford to miss. George M. Johnson has contributed a description of the latest things in motorcycles, with some account of the development of this little brother of the automobile, and Raymond D. Little in his "Quick Thinking in Tennis" gives us some valuable hints on the psychology of the game and how to get the best of one's opponent by "headwork."

Horace Kephart's series of papers on the Southern Highlander is continued and Belmont Browne describes the actual ascent of Mt. McKinley in Alaska, the highest peak in the Western Hemisphere. Other attractions are The Deep See Trawlers by Frederick William Wallace; In the Doggy World, a clever skit by Mary Alden Hopkins; A Japanese Whale Hunt by Roy C. Andrews, etc.

Miss Julia Lehman

Miss Julia Lehman of Mann's Choice died at the Western Maryland Hospital, Cumberland, Friday evening, March 27, of blood poison. She was a daughter of John P. and Louise Lehman and was born on what is known as the J. P. Lehman farm, near Mann's Choice, on April 7, 1892. Besides her parents, three brothers and seven sisters survive: Albert of Johnstown, George and Paul, at home; Mrs. Mary Holler of New Holland, Lancaster County, Mrs. Stella Flemming and Mrs. Grace Flemming, of New Baltimore, Mrs. Edith Faupel, Mabel, Nellie and Flora, at home.

The funeral services were conducted in St. Thomas' Catholic Church, Bedford, by Rev. Father Downes, Monday morning, March 24. Interment was made in the New Baltimore Cemetery.

Special dinner at D. O. Smith's restaurant on Saturday. Adv.

Harry Smith

Harry Smith died very suddenly on Saturday, March 23, at the home of his brother, Henry Smith in Hyndman, aged 33 years. He is survived by two brothers and two sisters: Henry and Scott Smith, of Hyndman, and Mrs. Lewis Sheet and Mrs. Harvey Smith, of Conneltsville.

The funeral services were conducted Monday afternoon, March 24, in Hyndman, by Rev. J. C. Powell. Interment was made in the Hyndman Cemetery.

Mrs. Rachel Stine

Mrs. Rachel Stine died at the home of her daughter, Mrs. Henry Pee, near Mann's Choice, Sunday evening, March 16, after a lingering illness, aged 66 years. She was a daughter of Mr. and Mrs. Jacob Fletcher and was born in Monroe Township. Her husband, John Stine, died about 15 years ago. One daughter and one son survive: Mrs. Henry Pee of East Providence and E. Walter Stine of Pittsburgh.

The funeral services were conducted by Rev. W. J. Matter of Everett in Wesley's Chapel on Wednesday, March 19. Interment was made in the graveyard at Mt. Pleasant.

A Quilting Bee

Hardly had the sun arisen above the mountains Wednesday morning, March 27, when the ladies of Pleasant Valley assembled at the home of W. T. Anderson for the purpose of quilting.

While the invited guests were busily engaged in quilting the good wife of the home and her mother-in-law were preparing a sumptuous repast, of which all partook heartily when the noon hour arrived. The crowd was kept in a cheerful mood by both vocal and instrumental music. The ladies almost completed two large quilts and were having a jolly good time.

Those present were: Mrs. Margaret Anderson, Mrs. Joseph Stayer, Mrs. Jacob Dier, Mrs. George Diehl, Mrs. Albert Diehl, Mrs. Lee Diehl, Mrs. Leona Diehl, Mrs. Conda Casteele, Mrs. George Dier, Mrs. John H. Beagle, Mrs. Ross Stayer, Mrs. Elmer Dier, Mrs. W. J. T. Anderson, Misses Ada and Lela Diehl, Bertha Shiffer, Nancy Casteele, Grace Beagle, Arvilla Stayer, Messrs. W. J. T. Anderson, James A. Mortality

God made us creatures of the dust,
But spirit came from God's own breath;
Let dust claim dust—it is but just
That souls divine should never taste death.

A Lively Affair

Bedford Grange is in a flourishing condition. Some of our members last summer made up their minds they would put it on fair footing and a few faithful ones have held out with determination. We are progressive and now number 120 members in good standing.

We will work to make this one of the largest granges in Southwestern Pennsylvania. We meet regularly every Wednesday evening, and have initiations and literary program on alternate nights.

We have added an orchestra and had a full house at every meeting for some time. Our literary work is interesting and instructive.

We were to hear some of the discussions you would be surprised. All enjoy the jokes, recitations and stories as well as the debates and, by the way, the Koontz Orchestra puts on the top notch.

Our funny man, Wilson Hissong, always has something to say. He will make you laugh whether you want to or not.

And there's Joe Donahoe—never made a speech in public before he "rode the goat;" he has just been taking down the house for several nights.

John Roberts is an all-around man and can make a speech on any subject. John would make a good Governor.

Do we enjoy the Grange meetings? Well, I guess! Some of us would rather miss our supper than miss one of these meetings. Our last was the largest and most interesting meeting we have yet held. This may read like a romance or a fairy tale but the proof of the pudding is in the eating.

Some weeks ago while musing Clarence Reighard said to himself it isn't good for man to be alone and took unto himself one Miss Florence Troutman to sail with him on life's journey. Both are members of the grange and they have the good wishes of the society.

Last Saturday evening a beautiful wedding occurred at the Reformed parsonage when Grover Hershberger led Miss Rebecca Devore to the altar. Rev. E. A. G. Hermann tied the nuptial knot. The wedding couple was at the last meeting of grange. Grange closed at 10 p. m. A move was made that we go as a body and serenade the new couple. John Roberts was elected captain. We gave two rounds of music when the couple came out. After congratulations we were invited by the host and hostess into the spacious parlor. This took place at Calvin Dietzel's where Miss Devore is boarding, she is assistant at the Cross-Roads school.

The Koontz Orchestra furnished music for the occasion which was highly appreciated by all present. The crowd was treated to candy, etc., and everybody seemed to enjoy the sociable time. A Member.

Not Paint

The worst mistake in painting is not putting-off. That costs about 10 percent; you keep your money a year and pay 10 percent for it.

Paint would have to come down 25 percent to make 10 percent on the job, for wages do not go down.

The worst mistake is "cheap" paint. It costs from 50 percent to 100, first cost, and another in wear.

What a liar "cheap" is! "Put-off" is bad enough; "cheap" is ten times worse.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; the cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Special Services at Coaldale

The Church of God at Coaldale held special services during the week preceding Easter. These services were well attended and much interest was manifested. The Sunday School is in a flourishing condition and much interest is being shown in the organized Bible classes. Easter morning, after the regular services, the pastor baptized three persons. A very large communion service was held in the evening.

Painful Memory

"Now, my little man," said a famous athlete, pleasantly, "I suppose your papa has told you about the day he and I played in a great football match?"

"Yes, sir," replied the bright child. "Ah, that was a great day. I knew he would never forget it. Does he often speak of it?"

"Yes, sir. He says you borrowed \$5 from him that day, and never paid it back."

Heaviest Rainfall

The heaviest rainfall known upon the globe occurs on mountain slopes beyond the head of the Bay of Bengal, and amounts to about 610 inches, or nearly fifty-one feet, during the year. One inch of rain implies the fall of 101 tons of water upon each acre of ground. It has been estimated by Commodore Maury that sixteen feet of water, assumed to be of the same area as the surface of the earth, is evaporated into the air every year. Another authority holds that if all the rain which falls in a year were accumulated in a basin the size of the earth the depth would amount to but eight feet.

Her Patriotism

By ELIZABETH WEED

Louise Archer was a very high strung girl. Excitement was to her a necessity, and often she mistook her excitable nature for noble impulses. When the Spanish-American war broke out she was nineteen years old and had been every day reading of the tyranny of General Weyler and the sufferings of the Cubans.

Louise had a lover, Gus Saunders, a plodding, methodical chap, entirely different from her. Since she could not go and fight the dons herself she determined that Saunders should go. Impelled by the rattling of drums and the "gathering of the clans," she went over to where he was sawing wood and said to him:

"Why, Gus, I'm surprised at you! Everybody but you is rallying round the flag, while you are stooping over a log with a bucksaw. Aren't you going to enlist?"

"Enlist? What for?"

"Why, to right the Cubans' wrongs."

"I don't see why I should right their wrongs."

"Haven't you any patriotism?"

"I don't see any occasion for patriotism."

"I do. Our young men are flocking to the standard by thousands, while you are content to bend your back sawing wood. Oh, that I should have accepted a—"

The young man was deeply in love. The expression on his face changed to one of such pain that Louise was deterred from speaking the word that was on her tongue. Throwing down his saw, he said:

"Louise, I love you so well that I will try my best to live up to your standard. After all, it is no more the duty of others than mine to respond to the call for volunteers. I shall enlist at once."

"Spoken like a man!" was the enthusiastic response, and she impulsively threw her arms about his neck. "I am sure you will return a hero."

"A what?" asked Gus.

"A hero. Some of Napoleon's marshals rose from the ranks, and maybe you will."

"Just so—that is, if I have time."

"Time? What do you mean by that?"

"Why, how long do you think it would take a big cat to kill a very little mouse?"

"Oh, you're always looking on the wrong side of things. It's going to be a great war. Goodbye. When you return with a general's shoulder straps just think how proud I'll be of you."

"You'll be true to me?"

"True to my soldier lover! Why, yes!"

A volley of kisses and he was gone.

A few months later a troopship unloaded a cargo of skin and bone on Montauk Point. Most of them were transferred to hospitals, the balance put in camps. One who had suffered from every disease known in Cuba was retained in hospital as long as there was a hospital at the point, then transferred to a more permanent home for the sick. He lingered between life and death till spring, when his doctors concluded that he would have a better chance for recovery if he could get a change. He was eager to go, assuring them that a sweetheart was waiting for him and his separation from her was keeping him back. Being discharged, he sought the location of his enlistment and, tottering along the road, met one who had known him as a hearty man but who failed to recognize him.

"Is Louise Archer alive and well?" asked the ex-soldier.

"Oh, yes, she's alive and well, only her name isn't Archer any more; it's Gugliametto."

"Wh-a-a-t?" faltered the stranger, aghast.

"Gugliametto, a dago fruit man came along here just after you fellows went away selling California grapes for Malagas and such like. He had big black eyes and long black mustache and curly hair. He sold Louise some fruit and got to talking with her. He told her that the Cubans were all biggers, while the Spaniards were braver men who had owned the island ever since Columbus discovered it 400 years ago. She asked him to come in and tell her about it."

"Well, the fellow twisted her right around. She had been one of the most patriotic girls of these parts; sent a letter down to fight these same dagoes more fool he. And after the fruit man went away she began to howl about the iniquity of the Spanish war. The fellow kept coming round every few weeks, and about a month ago she walked off with him."

The stranger stood looking at his informant out of his hollow eyes with pain and horror.

"Louise married a Spaniard!" he gasped. "Why, she?"

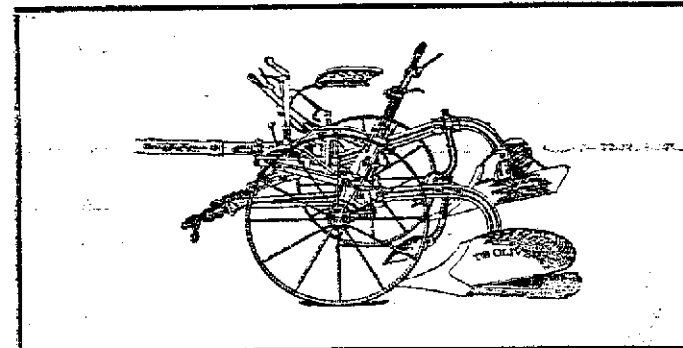

"Oh, yes, she was full of fight on the other side when the thing commenced. But, stranger, you seem awfully taken back at hearing about her. If you have any interest in her you needn't worry about the Spaniard. She came back a week ago without him. They say he dug out and left her to shift for herself."

The veteran turned and staggered away in the direction from whence he came.

But this is not all of the story. A day came when Signora Gugliametto secured a divorce from the fruit seller and, repentant, married the man she had sent to the war. If she was fickle, she paid for her fault by a lifetime of devotion to her soldier husband.

Ladies' World and Housekeeper
In The Ladies' World for April
there is a remarkably interesting ar-
ticle on the subject of the hour—
eugenics, the science of race im-
provement. This shows that while
the practice of proper selection is
only now being considered seriously
by present day scientists and
thoughtful people generally, it has
been strictly observed by members of
royal families almost as far back as
research takes us, for their interest
in healthy progeny was a state as
well as a family matter. The results
of scientific mating as here shown
are certainly most attractive in a col-
lection of happy, healthy children,
the two exceptions being the young
heir to the Czar, and the second son
of Spain's king and queen. "Mary's"
adventures continue to be of the most
exciting kind, this one describing the
trial and sentence of the Craigs, and
the abduction—and subsequent

Seed Corn and Soy Beans for 1914

Again I must disappoint inquirers for seed corn and soy beans in large quantities. I do not want this to happen in the future.

I would like to hear from a few farmers who labor supply, farm equipment and business habits, fit them for the work of growing seed for this district.

There are several strains of corn which have shown adaptability and value for special conditions; there are several strains of soy beans which have great superiority over those commercially sold for planting. I want a few choice men to help in growing these for wider distribution; men who realize that there is money in seed corn and in soy beans at \$2.50 per bushel net.

I much prefer that the labor be supplied by growing boys on the farm, who are given their fair share of the profit, and who will, therefore,

take pains with the work. Too many of our boys are driven from the farm because they get the same treatment as is accorded to the stock—they, the stock, are fed and cuffed, but that is all.

For the corn, manure must be used, there must be thorough preparation of the seed bed and modern cultivation. Instructions will be furnished for this work.

For the soy beans there must be a light application of air-slaked lime, through the drill, or with the spreader, inoculation both by pure culture and soil, which I will provide for without cost, and such cultivation as shows that the crop is considered a farm crop and not a sort of heaven-sent "manna."

Corn tested by the ear method, will be offered for sale at \$3.50 per bushel; tested generally for germination it will be offered at \$2.50. The soy beans will be offered at not less

than \$2.50 per bushel, depending on the market; they may bring a higher price.

With good work at least 20 bushels of each crop, fit for seed should be realized from each acre.

But the corn must be properly cured, and that does not mean that it can be cribbed; and the soy beans must be watched in curing so that they do not get into the barn wet and mould.

There is no need to worry about selling the product. The market for good seed is never fully supplied.

But it must also be distinctly understood that seed furnished for the purposes indicated is not furnished to be played with, it is for the serious work of supplying the needs of a large section. It must be distinctly understood that the disposition of this seed is to be through this office; and if neighbors wish a supply of seed they must apply through this

office for it.

If you want seed corn to get a start with on your own farm, or soy beans for the same purpose, we will handle your application. But do not apply for a part in this serious work without fully understanding and being prepared to hold up your end of the bargain.

The April American Magazine

One very interesting contribution to the April American Magazine is a report showing exactly how Scientific Management is working. Now that agitation of the matter has somewhat subsided, definite results have been obtained in factories where the invention has been put into actual operation. One of the cases reported is that of a Government Arsenal, where, since the adoption of Scientific Management, the cost of molds to the Government (that is, to the people) has been reduced from \$1.17 each to \$54. The daily earnings of the molder have been increased from \$3.23 to \$5.74.

Will Rebuild Noah's Ark
A real Noah's Ark of approxi-
mately the same size as the original of
the Old Testament, containing ani-
mals in great variety and capable of
navigating any sea, is the unique
plan of a company which has become
public in New York. In reality the
ship will be a huge marine circus.

The plans provide for a ship with
a length of 525 feet, corresponding
as nearly as may be to that of its
prototype; a beam of 80 feet, a trifle
less than the supposed width of
Noah's ship, and a depth from awn-
ing ridge to keel of a little more
than fifty feet, or about the same as
its original.

Her lines will be those of a first-
class freighter of from 12,000 to 15-
000 tons and like several of the lat-
est ships of its class, she will be fitted
with oil engines in order that space
and fuel may be economized and
funnels dispensed with.

This will secure an uninterrupted
view in the arena. In the lower
hold, anti-roll tanks will be placed in
position to lessen motion in heavy
seas, and there will be oil reservoirs,
machinery and engine-rooms, and
storerooms in addition to water-tight
compartments, while a double skin
and bottom will make the ark practi-
cally unsinkable and uncaptizable.

The lowest deck will provide quar-
ters for the various side shows, for
an aquarium, aviary and hospital for
man and beast, and a menagerie of
splendid proportions from which
there is to be a sloping roadway up
to the arena deck for the use of the
animals when a show is being given
or for deck parades. The chief in-
terest of the ship will be on the
arena deck.

The deckhouses in which traveling
performers will be accommodated
will, when the ship is at sea, present
no appearance of any peculiar char-
acter, but when the performance is
to be given in port these houses will
be pushed out until they overhang
slightly and then there will be an
available arena 350 feet by 125, sur-
rounded by twelve tiers of seats and
capable of seating upwards of 7,500
persons. The incorporators say that
they intend to begin building at once.

Causes Much Disease

Advice about Stomach Troubles
and how to relieve them.

Don't neglect indigestion, for it
may lead to all sorts of ills and com-
plications. An eminent physician
once said that ninety-five per cent of
all ills have their origin in a dis-
ordered stomach.

Our experience with Rexall Dyspepsia
Tablets leads us to believe
them to be one of the most dependable
remedies known for indigestion and
chronic dyspepsia. Their ingredi-
ents are soothing to the inflamed
membranes of the stomach. Rich
in Pepsin and Bismuth, two of the
greatest digestive aids known to
medicine, the relief they afford is
very prompt. Used persistently and
regularly for a short time, they tend
to relieve pains caused by stomach
disorders.

Rexall Dyspepsia Tablets help
insure healthy appetite, aid diges-
tion, and promote nutrition. As
evidence of our faith in them, we ask
you to try them at our risk. If they
do not give entire satisfaction, we
will return the money you paid us
without question or formality. Three
boxes, 25 cents, 50 cents and \$1.00.
You can buy Rexall Dyspepsia Tablets
in this community only at our store:

Tape-Measure Fire Escape

A remarkable fire escape, describ-
ed with illustration in the April Popular
Mechanics Magazine, is called
"the tape-measure." It consists of a
narrow band of steel tightly rolled
upon a spool contained in a casing.
In using the device, the end of the
tape is made fast at the point from
which the escape is to be made, a
leather belt attached to the spool
casing, is fastened around the waist,
and the user drops to the ground,
regulating the speed at which the
tape unwinds by means of a clutch
device.

The efficiency of the device was
tested recently from the fourth floor
of the firemen's drill tower in Los
Angeles, the drop being 200 feet.

Motor Sugar-Cane Harvester

A Motor-Driven machine for har-
vesting sugar cane, illustrated in the
April Popular Mechanics Magazine, is
one of several constructed in an
endeavor to win a \$2,000 prize once
offered by the Louisiana Sugar
Planters' Association. The machine
is propelled and operated by a 60-
hp. engine. It has an arrangement
of rollers and knives which grasp,
cut and top the sugar cane, deliver-
ing it stripped and ready for the sug-
ar mill. Only one man is required
to operate it.

els, try Doan's Regulants, a modern

SUNDAY SCHOOL

Lesson XIII.—First Quarter, For
March 30, 1913.

THE INTERNATIONAL SERIES.

Text of the Lesson, Comprehensive
Quarterly Review—Read Heb. xi
1-19—Golden Text, Ps. xxii, 4—Com-
mentary by Rev. D. M. Stearns.

LESSON I.—The Creation, Gen. i, 1, to
ii, 3. Golden Text, Gen. i, 1, "In the
beginning God created the heavens and
the earth." The Golden Text is a won-
drous statement containing just seven
Hebrew words of twenty-eight Hebrew
letters and tells the whole creation
story, which is stated in other words
in Ps. xxxiii, 6, 9; Heb. xi, 3. Gen.
i, 2, tells of a great catastrophe which
brought the earth into a condition of
chaos, waste and void, from which it
was delivered in six days by the Cre-
ator.

LESSON II.—Man the Crown of Crea-
tion, Gen. i, 26, 27; ii, 7-9, 15-24. Golden
Text, Gen. i, 27, "God created man
in His own image." After a great and
perfect restoration God made man,
male and female, man from the dust
and woman from a part of man, and
gave them dominion over all the work
of His hands. In these two chapters
we have a perfect earth, after the res-
toration without sin or curse of an
kind, and God in fellowship with man.
We have also the institution of the
Sabbath and marriage.

LESSON III.—Man's First Sin, Gen.
iii, 1-12, 22-24. Golden Text, John vii,
34, "Every one that committeth sin is
the servant of sin." Here we have the
first mention of that old serpent, the
devil, the first destructive critic ques-
tioning the word of God and the
love of God and making God a liar.
In the third chapter from the end of
the Bible we have his final doom. In
this lesson chapter we have also the
first mention of a deliverer, the way
of salvation and the future glory of
the redeemed.

LESSON IV.—Cain and Abel, Gen. iv
1-15. Golden Text, I John iii, 15,
"Whosoever hateth his brother is a
murderer." Adam, having been taught
the way of redemption and of approach
to God (Gen. iii, 21), taught his chil-
dren and their children. Abel believed
God and came obediently, bringing his
sacrifice. Cain was what might be
called a Unitarian, having no use for
the shedding of blood, but deemed the
best he had would be acceptable. He
was therefore rejected.

LESSON V.—The Flood, Gen. vi, 9-11,
vii, 1-24. Golden Text, Rom. vi, 2,
"The wages of sin is death, but the
free gift of God is eternal life in
Christ Jesus our Lord." Cain turned
his back upon God after he had killed
his brother, and his descendants began
to build cities, invent musical instru-
ments, work in brass and iron and im-
prove things generally, but all without
God, and wickedness became so great
that God had to cut off the race by a
deluge, saving only Noah and his family.

LESSON VI.—God's Covenant with
Noah, Gen. ix, 8-17. Golden Text, Gen.
ix, 13, "I do set by bow in the cloud
and it shall be for a token of a cove-
nant between me and the earth." The
next destruction will be by fire at the
end of this age, but we look for a new
earth wherein dwelleth righteousness.

LESSON VII.—The Call of Abram,
Gen. xii, 1-9. Golden Text, Gen. xii, 2,
"I will bless thee and make thee many
great, and be thou a blessing." In-
stead of dealing longer with the world
God separates a man, a family, a na-
tion and in the present age a church
to be His special people through whom
He may reveal Himself, whom He will
bless and make a blessing.

LESSON VIII.—Abram and Lot, Gen.
xiii, 1-12. Golden Text, Prov. x, 22,
"The blessing of Jehovah; it maketh
rich, and He addeth no sorrow therewith."
Abram found sorrow in Egypt, and
Lot found sorrow in Sodom, but
both were for the time out of fellow-
ship. It was good for Abram to go
back to Bethel and to find a restful
place and altar at Hebron.

LESSON IX.—God's Covenant with
Abraham, Gen. xv, 7-18. Golden Text,
Heb. x, 23, "He is faithful that prom-
ised." Let no one pass by the won-
drous story of Melchizedek nor fail to
notice the many new words of the
chapter—the first "Fear not," "I be-
lieve," "Righteousness" and many others.

LESSON X.—The Destruction of So-
dom, Gen. xix, 12-17, 23-29. Golden
Text, II Cor. vi, 17, "Come ye out from
among them and be ye separate, saith
the Lord, and touch no unclean thing."
The Lord Jesus referred to both the
deluge and the destruction of Sodom,
and said that the end of this age will
be similar as to sin and judgment.

LESSON XI.—The Text of Abraham's
Faith, Gen. xxii, 1-13. Golden Text,
Hos. vi, 6, "I desire goodness and not
sacrifice and the knowledge of God
more than burnt offerings." Isaac was
the promised seed in whom the prom-
ises were to be fulfilled, but God would
have us rest in Himself regardless of
what we see or feel.

LESSON XII.—Isaac and Rebekah,
Gen. xxiv, 58-67. Golden Text, Psa.
lxi, 6, "In all thy ways acknowledge
Him, and He will direct thy paths."
Jesus Christ, risen from the dead, is
now awaiting His bride, the church.
The Lamb's Wife, which the Holy Spirit
is preparing by telling of the glory of
God, and of Christ and the riches of
Grace. Soon the gathering will be
complete and our Isaac will welcome
us home.

Mammoth Production of Ford Cars

Another production record in the automobile industry was shattered last month when the Ford Motor Company built and shipped from its factory more than 17,000 cars. This is by far and away the largest number of automobiles ever constructed in one month by any company. It is more cars than the company built during the entire first year of its existence.

Since the beginning of its manufacturing year in October when it was announced the company intended building 100,000 cars this season, this announcement coming close on the heels of that, stating the company had built more than 75,000 cars last year, proved almost too startling for those not familiar with this gigantic business to grasp.
